Canada's Healthy Choice For Pets

**New Products at our store:**

**Almo Nature.** Almo Nature's wet cat foods are cooked and prepared using the best quality cuts of meat, and do not undergo any chemical processes. They are then preserved in their own cooking juices, to conserve their nutrients and flavour.

From Keptville, ON, Tollden Farms has been producing high quality raw food since 2002. Constantly researching nutrition they apply their knowledge to developing and producing what could be considered the best raw food available on the market today.

*If you would like to see us carry a specific product in our store, please drop us a line! We are always interested in what our customers have to say.*

## Pepe's Picks of the Month

Pepe the Giant Schnauzer is at the store almost every day. He has the hardest job of all—trying and sampling every product that comes through the doors. He is very good at not eating all the rawhides, treats and kibble on display, however, if something should fall on the floor, then it's fair game! Based on his feedback, here are a few of his picks for this month:

### Bottle Tracker—SRP: \$16.99

The perfect toy to create a crunchy toy or training tool. The wide fire hose Velcro pouch opens on the bottom and holds an empty plastic water bottle, some socks or your dog's favourite toy; and has a loop handle for tugging. I give this toy the paws up!

### Popware travel cups—SRP: \$10.49—\$12.99

This funky collapsible cup is perfect for long walks, camping and traveling. It collapses to less than 0.5 in and can be placed in the dishwasher for thorough cleaning!

### Kookamunga Catnip Bubbles—SRP: \$3.99

Ok, this one is reaaaaally reaaaaaaaaally funny! As a dog, it's always fun to see poised little cats go nuts for catnip...but floating catnip bubbles? Priceless! Safe and non-toxic.
